

Making a List, Checking it Twice

September INSTALLS

Begin planning for Christmas service

Evaluate last year's service and what to do better this year. The time to plan for an upgrade is NOW!

Bring in a professional

It always helps you to see from a different viewpoint.

Set up initial meeting with Audio-Video Group

Discuss desires, needs, and budget.

October INSTALLS/SERVICE

Project planning begins!

Set realistic expectations and goals for your holiday services early, including any A/V upgrades.

If you're not upgrading, plan any necessary "System Preservations"

AVG's System Preservation Program gets you on a schedule for preventative maintenance, from basic cleaning and tuning to advanced service and regular adjustment.

System tune-up

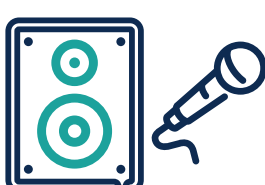

AVG will inspect existing system, readjust settings, and give recommendations to repair or replace outdated or broken equipment.

November SERVICE/RENTALS

Bring in AVG to consult on your Christmas services

We're more than just a rental company and have years of experience with special church services.

Decide on rental equipment needed for the day of

Mics, extra speakers, and lighting can help take your service to the next level.

Set up volunteer training with AVG

We can provide training for video projection, sound mixing, mic basics, etc.

December EMERGENCY SERVICE CALLS
